Your petitioners Abraham Rosenfeld, Moses Theller, and John Shue, residents of Storey County, represent that they have formed themselves into a company for the purpose of supplying the Town of Virginia city, with pure water, and in order to accomplish that end it is necessary that they have the exclusive use of two Springs of Water. The one having the source at Spanish Ravine so called, West and near Virginia city, and between Mount Davidson, and Virginia City, the other situate in the Ravine between Mount Davidson, and Mount Butler, near the divide between Gold Hill, and Virginia city, Your petitioners further represent that said Springs are not used for Mining or Agricultural purposes, ~~the water~~ Nor are they needed for such purposes the water from Mining Tunnels below furnishing an abundance of water from such tunnels for that purpose but is impregnated with mineral substances as to be unfit for drinking or Culinary purposes. Petitioners therefore pray the Court to grant unto them the exclusive right to the use of the water and also, the right of way for a ditch or flume to conduct the water from each

of Juice Springs to a common Reservoir or receptacle, or to seperate receptacles as they may deem proper. all or near Virginia city, Petitioners further represent that no injury will result to any citizen by thus diverting the water from Juice Springs, but that great benefit would result to the inhabitants of Virginia city if the prayer of Petitioners should be granted by your Honorable Court, and the improvement contemplated carried into operation,
